Inventory Control & Warehouse Management With QAD Automated Solutions

ADAM KACALA - QAD, Inc.

Learn how can you optimize your shop floor operations with the most recent additions to QAD Automation Solutions offering. MES integration framework will seamlessly integrate your existing MES systems with QAD. Optimize your warehouse storage with Warehouse Extensions. See a live demo of touch screen production reporting. Automation Solutions will help you to run your inventory and production processes at peak efficiency!

De-Coding Successful QAD Launches

SRIKANTH SRINIVASAN - Thirdware

Thirdware has successful executed mission critical QAD implementation of varying size and complexity in last 20 years. We would like share the factors and accelerator used across our QAD launches covering small to global implementation and SE to EE.

12:00pm

Luncheon - *Poinsett Ballroom*

1:00pm

Demand & Supply Chain Planning

JEFF LIVINGSTON - QAD, Inc.

Every decision made at a corporation in the Sales and Operations Planning process has a financial impact. Best-in-Class organizations understand this and how to plan for the potential impact of these decisions. See how you can visualize the impact and profitability of these decision with QAD's Demand Planning applications.

Real-Time Reality: Replicating QAD Data to Your Data Warehouse

DANIEL DIMM - Progress

Learn about real-time data replication that provides quick access to your data from your Progress-based system. Pro2 removes connectivity limitations without disruption to normal business operations or risk to your system of record. You can use Pro2 to create a channel for transferring Progress OpenEdge data into a target SQL Server, Oracle or an OpenEdge database for efficient reporting and analysis.

2:00pm

Break / Visit The Exhibits - *Poinsett Ballroom*

2:30pm

Ten Tips to Improve MRP Performance

SCOTT DULECKI - Progress

MRP drives the manufacturing process, but is that a Sunday drive through the countryside or a stop-and-go horn-blasting rush hour? There are a number of choices that you make when running MRP that determine whether you'll be smiling or swearing as MRP runs. In this session, Scott will cover what you can do to reduce the stress and challenge of running MRP.

In-House or Outsource Support For Your QAD System

BOB GOMEZ - Strategic Information Group

Similar to the make vs. buy decision operations managers make for manufacturing, IT and finance professionals have options to consider for supporting their QAD system. More & more companies are deciding to focus on their core competencies and outsource their QAD support. Learn how companies outsource their QAD database, application, EDI, development, infrastructure and end user support needs for lower costs and convenience.

3:30pm

Break / Visit The Exhibits - *Poinsett Ballroom*

PROGRAM AGENDA

TECHNICAL TRACK <i>Marion</i>		SPONSOR TRACK <i>Furman</i>	
Software Configuration Management Primer MICHAEL SOLOMON JACLYN BARNARD Roundtable Software Every day, more projects. More code to be developed, managed, stored, and... shoot! That code change we rolled out last week is having some... interesting side effects. Can we reverse it and try again? There are a lot of ways to manage all of development work your team does, but are you set up to win? Or just to get by? In this session, we'll walk you through a software configuration management (SCM) litmus test to see how well your team manages today's problems so they don't show up and cost you again tomorrow. You'll know how to measure how just "getting by" costs you and how you can get ahead with the right practices and tools.		Cyberquery for Reporting/BI and Dashboards BRENT BECKER - Cyberscience This session will focus on two aspects: Consolidated and federated reporting across multiple applications, databases and platforms. Reporting and analytics from all data in an enterprise both easily and efficiently is much in demand. Data Visualization through Dashboards and what other QAD sites are doing.	
4:00pm
