9:45 **WELCOME KEYNOTE ADDRESS**

ERP in The World of Advanced Technologies

GLENN GRANEY - Director-Industrial & High Tech, QAD, Inc.

There is incredible hype around Industry 4.0 and associated emerging technologies such as IoT, Machine Learning, Block Chain, Augmented Reality and much more. QAD is following all of the respective capabilities and engaging with our customers in their adoption journey. QAD will provide insights into positioning the technologies and provide use cases detailing the expected impact on our customers ERP and manufacturing business systems.

CONCURRENT TRACK SESSIONS

TRACK #1

QAD Automation Solutions

ADAM KACALA - QAD, Inc.

Hear about the latest enhancements and extensions to QAD Automation Solutions, including: Warehousing, Advanced Shipping, and Shopfloor Reporting.

TRACK #2

Optimize Reporting Using Real-Time Replication

ALEX OLIVERI - Progress

Reporting on the QAD database can cause performance problems and potentially unplanned downtime. There are better ways to get timely reports for better decision making. To meet this requirement you need a scalable, configurable multi-threaded approach that also includes ETL capabilities. Come see how 250 customers are using a real-time replicated MSSQL database to meet their reporting needs.

EAM TRACK

EAM 360°

SPEAKER TBD - QAD, Inc.

More than just a "PM program" - Enterprise Asset Management is the QAD asset lifecycle management solution. This session provides a comprehensive overview of all the powerful functionality included with EAM.

11:00am

Desc...

CyberQuery

MIKE MAIN / BRENT BECKER
Cyberscience

This session will offer an overview of how QAD customers use Cyberquery to communicate throughout their organization. From sales reporting to display screens on the factory floor the tool's flexibility provides seamless views into an organization's activity.

Advanced Tech and EAM

SPEAKER TBD - QAD, Inc.

In the keynote address you will have heard about QAD's approach to embracing the latest Advanced Technologies. In this session, we will explore how these new and exciting opportunities can impact your Asset Management strategy with EAM.

12:00pm

1:00pm

2:00pm

2:30pm

50 Ways to Dig Your Data

SCOTT DULECKI - Sungate Solutions

Data Digger is an open-source tool that allows you to look inside your database to see exactly what your data looks like and find precisely where things are being placed. But that's just scratching the surface of what this free tool can do. In this session, Scott Dulecki will examine 50 (or more!) ways to dig your data through Data Digger, showing how it complements and supports your daily life on its way to becoming indispensable for building browses, designing reports, and hunting down the answers to problems.

Create Your Own Browse

BOBBY YEOMANS
Strategic Information Group

In the .NET UI interface browses can be powerful tools. This session will review how you can create your own browses to get the information you need.

EAM:

What's New and Plans For The Future

SPEAKER TBD - QAD, Inc.

Change is in the air with QAD's next generation releases. Come check out the very latest in EAM from new user interfaces to new functionality and get a sneak peek at future plans.

PROGRAM AGENDA

3:30pm

Break / Visit The Exhibits

TRACK #1

EE Financial Integration

RON WEBSTER - NN Inc.

Any implementation can be difficult, especially those implementations without good planning around financial configurations and setups. Ron has been involved in over 100 financial system implementations over his career. Ron will discuss tips and tricks for a good implementation; centering his discussion around setting up a good chart of accounts and setting up good financial security. Please come with questions as an open discussion will be encouraged!

TRACK #2

South Dakota vs. Wayfair: What Does It Mean for My Business?

JERRY KONING - Avalara

The Supreme Court of the U.S. has ruled in favor of South Dakota in South Dakota v. Wayfair, Inc. Is it possible that their decision could put an end to "tax-free" shopping for good? Out-of-state retailers might now have a new set of obligations and challenges ahead of them, while states could potentially gain billions in revenue from taxing out-of-state sellers on their online sales. The ruling also applies to manufacturers and wholesalers who sell direct to consumers. But what does it mean for your business? Join our session so you can learn what it means and how we can help.

EAM TRACK

Beyond the Basics: Tips & Tricks

SPEAKER TBD - QAD, Inc.

In this session, we will explore some tips and tricks for applying the more advanced functions of EAM, some of which may surprise even the more seasoned users of the solution!

4:00pm

Vendor Hall Reception

5:00pm-6:30pm

TUESDAY • October 9

CONCURRENT TRACK SESSIONS

TRACK #1

Enabling Advanced Sales & Operations Planning With QAD Demand & Supply Chain Solutions

OYKU ASIKOGLU - QAD, Inc.

The S&OP process is data intensive and requires an integrated systems that promotes a seamless process for all the elements of S&OP including demand planning, supply planning, demand balancing and business reviews. QAD DSCP provides the technology platform that enables you to implement an Advanced S&OP process that fits the unique needs of your organization.

TRACK #2

What's New in OE 11.7

ALEX OLIVERI - Progress

With security breaches making news on an almost daily basis, the need to protect your Progress OE application and data from attack has never been more urgent. Even if you think you are doing the right things, applying best practices is key to a comprehensive strategy. In addition, 11.7.3 also added functionality for business continuity and high availability. This presentation will present these topics as well as other notable features added to the current release.

EAM TRACK

EAM Roundtable Panel Discussion

MODERATOR TBD
QAD, Inc.

Calling all experts!

In this session we will be joined by EAM Consulting, R&D, and Support experts from around the world in a web conference session. You can pre-submit your asset management challenges for discussion by emailing nnm@qad.com, or you can ask them live as time permits.

9:00am

What Is Coming From QAD Support

JEFF McINTOSH - QAD, Inc.

We will discuss Support's roadmap and how we are moving to a Service Delivery Organization and what that means for you our customers. We will also cover areas that can help you become more successful when interacting with Support.

EAM Upgrade Paths & Product Survey

MODERATOR TBD
QAD, Inc.

For the final session of this special EAM Breakout, we will discuss upgrade vs. re-implementation options, and wrap-up with a survey to measure your EAM priorities for product direction. Look for some lucky attendees to leave this session with some cool prizes in hand, as well!

10:00am

Conference Wrap-Up / Prize Drawings
